Dear Friends -

Tomorrow/Thursday, May 29th @ 6 p.m. in the Darby High School library, there will be a free screening of the documentary "Subdivide & Conquer". The one hour film was photographed in Montana and other western states and depicts how sprawl impacts peoples' lives in cities, suburbs and towns, and what some people are doing to plan and change the way their communities grow. Rated "A" by Entertainment Weekly, it is '...an engaging and educational documentary on the consequences and projected solutions of rural growth.'

If you were unable to attend the Pharoahplex screening and would like to see the film please join us.

Thank You.

Peter
